

Fuel Prices API for DK

Status

This API is currently **available**, but it is under modernization and will be **updated soon**.
Functionality and responses may change without prior notice.

Overview

This API returns current fuel prices for DK based on selected country (DK).

Endpoint

GET /v1/prices/fuel/countries/{countryCode}

Response of the endpoint - general sites data for {countryCode} country.

(Base URL is intentionally omitted - see "Contact" section to request access to the API)

Query Parameters

{countryCode} - Country code of the site; currently the only supported and valid value is "DK".

Response Format

Content-Type: application/json

Example Response

```
{
  sites: [
    {
      "id": "123456",
      "name": "CIRCLE K AUTOMAT",
      "phoneNumber": "+37123456",
      "address": {
        "street": "street",
```

```
"city":"city",
"state":"",
"postalCode":"12345",
"country":"DK"
}
}
]
}
```

Endpoint

GET /v1/prices/fuel/sites/{siteId}

Retrieves fuel station details along with current fuel prices for the selected site.

(Base URL is intentionally omitted - see “Contact” section to request access to the API)

Query Parameters
